EDUCATION

Kashi Institute of Technology 2027
Bachelor of Computer Applications | Varanasi, UP

CORE SKILLS

- Cyber Kill Chain
 - Vulnerability Assessment
 - Full-stack Development
 - Manual Testing
 - Security Testing
 - Problem Solving
- CIA Triad
 - Penetration Testing
 - Blue Team Operations
 - Remediation Reporting
 - Team Leadership
 - Competitive Programming
- MITRE ATT&CK; Framework
 - Network Security
 - DB Management
 - DSA / Algorithms
 - Project Management
 - Communication

WORK EXPERIENCE

Pursuit Future Technology Jan. 2025 – Apr. 2026
Cybersecurity Intern | IT Services & Cybersecurity Solutions Provider, India

- Pursuit Future Technology delivers cybersecurity and software development solutions to clients across India.
- Tested 15+ vulnerabilities across 3 client applications including injection attacks and access-control flaws.
- Secured manual security tests using Burp Suite uncovering critical issues, reducing risk exposure by 40%.
- Created and deployed custom payloads to simulate real-world attack scenarios; produced 10+ remediation reports.
- Earned Certificate of Excellence for top performance as intern.

SCMD Foundation Apr. 2026 – Present
Security Analyst | Varanasi, UP | Finance / Banking Sector

- SCMD Foundation is a small finance bank operating in Varanasi.
- Conduct weekly vulnerability assessments on 5+ web applications using Burp Suite and Metasploit Framework.
- Identified and reported 20+ security vulnerabilities including XSS, SQL Injection, and CSRF; achieving 95% remediation rate.
- Developed custom payloads and conducted exploit testing in controlled lab environments, reducing attack surface by 30%.
- Collaborate with 3 development teams to remediate flaws and improve overall security posture.

PROJECTS

Video Playback from Excel and Google Sheets Sep. 2025 – Nov. 2025

- Created a tool to trigger video playback from Excel and Google Sheets data for 3 internal use cases.
- Integrated Google Sheets API for real-time data fetching and automation, cutting manual setup time by 60%.

School Management System Jan. 2025 – Aug. 2025

- Built a full-featured system managing 500+ student records for attendance, grades, and administration.
- Used CRUD operations and database integration to reduce administrative workload by 50%.

ATS Resume Finder using AI Mar. 2025 – May 2025

- Built AI-powered resume analyzer increasing ATS compatibility scores by up to 35% via NLP-based keyword matching.
- Tested on 100+ resumes to improve job application effectiveness.

Automated Attendance System using Face Recognition Jan. 2025 – Feb. 2025

- Engineered AI-powered CCTV attendance system achieving 98% face detection accuracy for 50+ students.
- Implemented multi-step verification to ensure students' presence for full class duration.
- Directed a 4-member team at All India Hackathon; won at college level and represented institution nationally.

Osint Tool

- Developed an OSINT (Open Source Intelligence) tool for information gathering and reconnaissance.

VOLUNTEER EXPERIENCE

SCMD Foundation
Jr. Penetration Tester | Small Finance Bank

- Performed penetration testing activities for a small finance bank, identifying and reporting security vulnerabilities.

TECHNOLOGIES

- Burp Suite
- Metasploit
- Nmap
- Wireshark
- Cisco Packet Tracer
- Python
- Java
- C / C++
- JavaScript
- SQL
- HTML / CSS
- Kali Linux
- Ubuntu
- Windows

CERTIFICATIONS

- O Level – Web Dev & Publishing (NIELIT)
- Intro to Cybersecurity (Cisco)
- Getting Started w/ Cisco Packet Tracer
- Digital Productivity with AI (Microsoft)
- Data Science for Beginners (Board Infinity)
- Certificate of Excellence – Pursuit Future Technology
- Certificate of Internship Completion – Pursuit Future Technology
- Full-stack Development – Pursuit Future Technology

LANGUAGES

- Hindi (Native)
- English (Professional)
